

# Layoffs prevalent as economy and job numbers surge

Tonawanda metal plant cuts 42% of workforce

February 21, 2024

by ROBERT WEINER AND GENE LAMBEY

Many people are asking why several big companies are laying off employees if the economy is booming and national job numbers are surging. The new-jobs surge was 350,000 last month and 15 million since President Biden took office. The unemployment rate was under 4%, which is a central part of Democratic success claims, whereas layoffs are integral to Republican talking [...]
